FITZ WINS BACK WIFE

Attorneys for Lanky Bob and his pretty runaway spouse announce that the pair have kissed and made up. This was the result of a conference between the pugilist and the lady at Sioux Falls on January 6th. The meeting between the lovelorn pugilist and his wife drove him to tears, but he braced up and won her back. At first Mrs. Fitz was as cold as an iceberg, but she at last came round to the fighter's pleadings. While making souvenir horse shoes in a blacksmith shop in Sioux City, the shop collapsed and fell on Fitz. He and several others narrowly escaped death in the falling timbers.

PINKHAM REPORTS

ON VARIOUS

NEW ORDINANCES

At the Board of Health meeting yesterday President Pinkham reported on the plumbing ordinance as follows:

I present, by request, for your notice a proposed ordinance "Regulating Plumbing and Plumbers Within the County of Oahu," now before the Board of Supervisors of that County.

Omitting Sections Nos. 2, 3, 4, 5, 6 and 7, the sections are practically the same as the Regulations of the Board of Health and its present practice. Such changes as are made in the corresponding sections inure to the public benefit and are now generally observed.

Possibly Section 22, first sentence, might be advantageously modified.

Should the ordinance pass there would appear a nominal, though not a practical, conflict between the Ordinance and the Regulations until they were made identical.

Sections 2, 3, 4, 5, 6 and 7 are entirely beyond the powers delegated to the Board of Health. Beyond the indisputable axiom "the greater the skill the more perfect the work" any opinion of the Board, relative to those sections, would partake of presumption. The Board took no action in the matter.

The President's message went on as follows:

The appearance of the streets of Honolulu is made offensive by paper and loose rubbish allowed to remain in the gutters.

You have before you copies of cards I have directed posted in all parts of the city, that they may remind the people to take just a little pains to keep the sidewalks, gutters and streets in order. A few moments' easy work each day in front of the premises of each person, especially down town, would make a vast improvement in the appearance of Honolulu.

A much more liberal distribution of public rubbish containers by the County Supervisors would aid greatly in accomplishing this object.

Similar cards are being printed in the Chinese language and will be posted.

One thousand cards similar to the sample before you are being printed and will be posted in all public places. That people begin to realize the seriousness of careless expectoration is illustrated by the fact we were telephoned yesterday to forbid a consumptive exposing others by his willful carelessness.

A sample card of the regulation notices was shown. It read as follows:

No garbage or offensive liquid or matter shall be thrown or deposited in any highway, street, lane or public place within the Territory of Hawaii.

No garbage or offensive liquid or matter shall be kept upon any premises except in covered retainers of not less than 12 cubic feet capacity and shall be removed from said premises or disposed of within not less than one week unless otherwise ordered disposed of by the Board of Health or its duly authorized agents.

EXPECTORATION.

No person shall expectorate upon any public place, sidewalk, street crossing, or upon the floor of any street, car or railway car, or any other public conveyance, or of any public building or any building common to the use of the public. Street gutters are excepted.

SPITTING SPREADS DISEASE.

BOARD MAY SELL WAIHANAU WATER

At the meeting of the Board of Health yesterday the proposition of the Molokai Ranch Co. to lease Waihanau valley to get water from it. President Pinkham's message stated as follows:

January 5th, Mr. A. F. Judd states Mr. Lindgren's report shows the normal flow in the Waikolu valley the year round is 3,850,000 gallons of water. This agrees with our former understanding when seeking to enlarge our supply.

Superintendent McVeigh says that during the dry season there is used a small quantity of water from the Waihanau valley for our dairy cows, but a pipe from our water system can be run to the gate of the valley and thus provide a substitute supply. Mr. McVeigh is not adverse to surrendering the water desired. The main question would seem to be whether the Board can secure any of the price paid for the concession with which to improve its own water supply.

Mr. Judd has presented an amended description and resolution to carry the proposition the Molokai Ranch desires into effect.

I have marked on the map herewith the approximate bounds. The necessity of further verification I submit to your direction.

A letter was read from Superintendent McVeigh stating that he thought Judd and his associates overestimated the water supply. If the settlement could run a one-half inch pipe to supply its milk cows with water, and if the ranch would pay for the lease, he recommended that it be made.

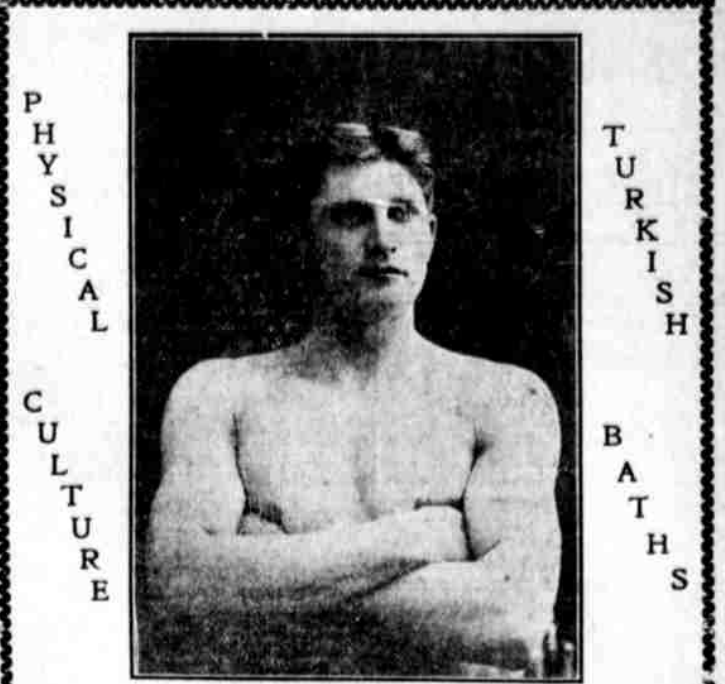

After some discussion it was decided to leave the matter to the President with power to act.

FOREST RESERVES

The Board of Agriculture and Forestry met yesterday afternoon. The committee on forestry reported on the reservation on the Government lands of Anahola, Kamalomaloo and Kapa and the land of Kealia, Mahee Sugar Co., recommending that the reserve be made. This committee also recommended that the forest area on Honouliuli be made a reserve.

The Forestry Superintendent reported on the proposed Kealia reserve on Kauai, describing boundaries, recommending that the Governor declare the area as a forest reserve. Both the Kealia and Honouliuli reserves will now be referred to the Governor, that public hearings may be held.

Reports of scientists were read. Dr. V. A. Norgaard goes to Molokai and then to Maui to inspect animals. Gerrit P. Wilder was appointed a member of the Agricultural Committee in place of J. D. Dole. Jared G. Smith reported on tobacco experiments.

Crystal Springs Butter

The main points of excellence about CRYSTAL SPRINGS BUTTER are purity and fine flavor. There is no butter that can compare with CRYSTAL SPRINGS BUTTER in point of quality, on the local market. The fact that more of this butter is consumed in Honolulu than all other brands put together, speaks volumes in its favor. We pack the butter in neat cardboard cartons, which prevents it getting soft and keeps it from contact with other articles in the ice-chest.
